Pictograph - Pumpkin Harvest

The pictograph shows the number of pumpkins harvested by five farmers in the fall season. Use the graph to answer the questions.

- 1) Who harvested the most?

- 2) How many pumpkins did Jacob harvest?

- 3) Who harvested 250 pumpkins?

- 4) Name the farmers who have harvested the same number of pumpkins?

- 5) Danny harvested more pumpkins than Ray. Is that true?

Each worksheet has a different theme. Ice Cream Flavors Pictograph - GRATIS - Students complete the simple pictograph about favorite ice cream flavors; Includes summons of half; Approximately 2nd-3rd Grade 2nd to 4th Grades Girl Scout Cookies Pictograph - GRATIS - Use the information to complete the pictograph, then answer the following questions; No signs of half; About 2nd grade level 2nd to 4th Grades Popcorn Sale Pictograph - FREE - Complete the popcorn sales pictograph and answer questions; There are no symbols of the half; Approximately 2nd-3rd grade level 2nd to 4th Grades Simple graph shows lemonade benefits. - Scale counts for 5s and does NOT include numbers of the half. 1st through 3rd Grades Pictograph of animals de peluche The basic pictograph has bear shapes to represent stuffed animals. - Students determine how many stuffed animals each person has. - DOES NOT include half of symbols. 1st through 3rd Grades Students analyze the data in the table to answer questions. Scale counts for 2,000s and includes half the numbers. Degrees Customers visit the French - every day. - To find out, students examine the pictograph. - It requires counting by thousands and includes half numbers. These pdf worksheets meet the learning needs of kindergarten children, grade 1, grade 2 and grade 3. There are three 3rd grade printable worksheets on different topics. Keys: 2, 8 or 10. Winter sports: Practice reading a chart of bars Winter sports: Practice reading a bar graph In this math spreadsheet, users can read a bar graph on popular winter sports and then practice extracting and analyzing data while answering five questions. The scale varies between 2 and 10. Use information to answer questions. Brands counting with themes Each printable counting worksheet has a different theme to practice drawing counting marks with more diversion. Students in 2nd and 3rd grade may wear half-symbols in some places. Draw count marks to show the count at category and use the information on the counting chart to answer the word problems. Key values take only three-digit numbers. Each pdf worksheet maintains a unique theme, which would help kindergarten students up to the third grade to strengthen their knowledge of data analysis in real-life situations. The calculus may be a little heavier. Based on the chart, answer the questions. The key value varies between 2 and 9. Through the various exercises presented, these Grade 3 worksheets help the child absorb concepts such as fractions, geometry, time and money in the most efficient way and apply them. 3rd Grade Mathematics PDF Our printable counting chart worksheets contain counting of brands, names, names, etc. writing, sorting of images, drawing of count marks, clip and dashboard activity, reading of counting graphs and words. Students can group the elements into 2s, 3s or 5s. Grade 2-4 Students complete the pictograph using the data from a table. Then, complete the short questions that follow The pictogram counts for 10s and includes half symbols. 2nd to 4th Grades Students are given a pictograph with data from a cupcake bakery. Obviously, there are half-symbols. Give them an advantage with our free spreadsheets! Count to 15 Ask kindergarten and 1st grade children to draw a line each time they count the photo; draw a crossed line every 5 years on these pdf worksheets. Count marks and pictography Draw the pictogram based on information about the count marks. Strengthens knowledge in the representation, organization and classification of objects. Show the information by drawing the pictogram. These interactive third-grade math worksheets also help teachers and parents your children's learning progress. Third grade math worksheets help children get used to new ideas and concepts introduced at this stage. Standard: Easy Level Draw a pictogram to represent the data and answer the questions. Standard: Moderate Moderate Each PDF worksheet has a real-life with data values in the table. Standard: Difficult level divides each entry by key value to determine the number of numbers going in each row. Students must answer questions based on the grantees of im genes. These printable worksheets contain skills that involve reading, drawing, grouping and math. Draw tally and word problems in this set of printable practices, 2nd and 3rd graders should recognize and organize objects and interpret the results. Coordinate Grid: "Practice music with sports! Coordinate Grid: "Practice music with sports! For sports lovers, this coordinate network worksheet will surely be a success. Reading Picture Graph Answers questions based on the picture graph. Pictogram for reading | Difficult level The scales are in hundreds. Sort objects into categories, draw tally marks, and count the number of objects in each category. They use the data in the graph to answer the questions. 2nd through the 4th grade of images of images of genes Characteristics of the numbers of birds that count with Twos students. Students must use the graph to answer questions. It requires adding, subtracting and inferring. Includes half of the numbers. 1st to 3rd grades Grade 3 math questions follow a step-by-step learning process that helps students better understand concepts by recognizing their mistakes. Use the symbol media where necessary. You don't require any means here. Let them turn the clip and record the result in Tally Tally. Suitable for kindergarten and children of grade 1. Reading pictogram | Easy Level This section features a Pictograph Pictograph PDF worksheet for 1st and 2nd graders. The From the spinner board asks children to keep Paperclip with pencil in the center of the blackboard. Print our free pictogram worksheets with just one click! Complete the graphic graph Complete the graph of images by cutting the graphics and holding them under the proper category.
